

SHASHANK ZODE

Supply Chain Transformation | Logistics Network Optimization | P&L Leadership

shashank.zodeofficial@gmail.com · +91 9553515553 · Bengaluru, India · [linkedin.com/in/shashankzode04](https://www.linkedin.com/in/shashankzode04)

PROFESSIONAL SUMMARY

Supply chain executive with 16+ years building and transforming logistics networks across India's most demanding high-growth environments Amazon, Reliance Retail, and IBO. Proven track record of owning complex P&Ls (\$21M+logistics spend), delivering \$2.6M+ in cost savings, and scaling operations from greenfield to multi-city infrastructure while sustaining service excellence. Equally effective designing strategy in the boardroom and driving execution on the ground from launching 5-city distribution networks and unifying 5 business verticals onto a single logistics backbone, to managing 600,000-package-per-day sort operations at peak. Lean Six Sigma certified; experienced leading cross-border operations in the Middle East. Open to senior leadership roles in supply chain across omnichannel retail, D2C, ecommerce, or high-growth logistics.

CORE COMPETENCIES

- | | |
|--|--|
| • Supply Chain Strategy & Transformation | • P&L Ownership & Cost Optimisation |
| • Network Design & Capacity Planning | • Transportation & Last-Mile Optimisation |
| • Vendor & 3PL Management | • Inventory & Warehouse Management |
| • TMS / WMS / ERP-Driven Operations | • Lean Six Sigma & Continuous Improvement |
| • Digital Transformation | • Executive Dashboarding |
| • Supply Chain Analytics | • Product Innovation |
| • CAPEX Planning & Budget Management | • Cross-functional Leadership & Team Development |

DIGITAL TRANSFORMATION, AI & PRODUCT INNOVATION

- Conceptualized and developed AI-powered solutions to advance supply chain planning, operational decision-making, KPI analytics, and logistics visibility.
- Architected the RouteSphere Control Tower and Transportation Control Tower, delivering executive dashboards for real-time transportation visibility, delivery performance, network health, and operational KPI monitoring.
- Designed the RouteSphere Delivery App, enabling digital last-mile operations through real-time shipment visibility, driver management, proof-of-delivery, and delivery workflow management.
- Developed the SCS-Fabric Space Intelligence Engine, an AI-powered platform for warehouse planning, capacity optimization, space estimation, and scenario modelling.
- Independently architected the NexusOne Inventory Planning Tool, an AI-powered enterprise platform for end-to-end supply chain planning, optimization, and executive decision intelligence.

WORK EXPERIENCE

Director – Supply Chain Management | IBO (EBO Mart Pvt. Ltd.) · Bengaluru, India

Apr 2024 – Present

End-to-end supply chain ownership for India's leading Home Development & Construction retail chain

- Designed and deployed IBO's supply chain infrastructure ahead of retail expansion across 5 cities - standing up greenfield distribution centres in Chennai, Hyderabad, Coimbatore, and Pune with full-stack setup: warehouse space

planning, category-wise allocation, direct and indirect manpower hiring, and last-mile vehicle and transporter onboarding — enabling 50-store network launch within 6 months.

- Enabled 36% business growth (\$31.8M to \$43.4M per year) while maintaining a lean ~\$0.13M/month supply chain cost structure, reducing cost-to-revenue ratio from 6% to ~3.6% through network optimization, warehouse productivity enhancement, and transportation transformation initiatives.
- Restructured IBO's multi-city distribution network, eliminating redundant warehousing nodes and deploying a lean 23-vehicle fleet across 45 stores, delivering \$0.42M+ in annualised savings with no impact to delivery SLAs.
- Designed multi-modal transport network with optimised route planning, reducing average cost-per-delivery by ~15% and improving on-time delivery (OTD) from 78% to 94%.
- Launched 4-hour rapid-delivery capability and marketplace integrations (B2C channels), directly supporting a 15% increase in order fulfilment velocity.
- Deployed TMS and Vendor Scheduler Dashboard, reducing manual tracking effort by ~40%, improving real-time shipment visibility across 5 Distribution Centres & 50 store locations
- Established vendor management framework covering onboarding, SLA/KPI scorecards, and performance reviews for 15+ courier and transport partners, reducing SLA breaches by 20%.
- Drove pre-emptive bulk buy across 11 categories ahead of US-Iran-driven price escalation - securing 5.8L+ units network-wide, holding customer prices flat while competitors raised by 8–10%, and converting a supply disruption into a competitive advantage for IBO.
- Built and led a cross-functional supply chain team of 20+ (managers, asst. managers & executives) across warehousing, transport, and vendor management functions.

General Manager – Hub & Transportation | Reliance Retail Pvt. Ltd. · Bengaluru, India

Mar 2021 – Apr 2024

South India Supply Chain & Logistics Head - P&L responsibility for 5-state hub & transportation network

- Oversaw hub and transportation operations across Karnataka, Andhra Pradesh, Telangana, Tamil Nadu, and Kerala managing a combined network of 8 distribution hubs, 82 Self & HIH hubs and ₹180 Cr+ annual logistics spend.
- Delivered \$2.6M (12%) transportation cost savings over 2 years by leading network optimization initiatives including route redesign, fleet right-sizing, milk-run implementation, carrier renegotiation, and vehicle utilization improvement from 68% to 87%, across a \$11.9M+ annual transportation spend network.
- Unified 5 Reliance business verticals onto owned hub infrastructure, eliminating 3PL dependency and transforming Reliance Digital SLAs from 3-4 days to next-day (metro) and 2-day (Tier 2/3) directly contributing to increased sales conversion and customer retention in a delivery-sensitive category.
- Spearheaded AOP-driven capacity expansion, launching 2 new regional hubs and upgrading 4 existing facilities, increasing total network throughput capacity by 40% to support business growth.
- Implemented automated tracking and digital invoicing systems, reducing administrative overhead by 35% and improving billing accuracy to 99.2% (from 94%).
- Executed vendor scorecard framework for 40+ logistics partners, achieving 98% SLA compliance and reducing claims/discrepancies by \$0.30M annually.
- Led a team of 90+ across hub operations, transport planning and vendor management, including 8 direct-report senior managers.

Operations Manager III | Amazon Seller Services Pvt. Ltd. · Hyderabad, India

Apr 2020 – Mar 2021

India's largest Return Centre | 400,000 sq. ft. Fulfilment Centre

- Reduced return processing turnaround time by 25%, directly improving customer reimbursement SLAs and CSAT scores for ~2M return shipments annually.
- Delivered \$4.4M (18%) annual cost reduction through lean process redesign, loss prevention initiatives, and Kaizen-driven waste elimination.
- Applied functional testing protocols for the Kitchen sub-category, cutting product defect rate by 30% and improving item saleability by ~20%, recovering an estimated \$0.48M in inventory value.
- Maintained 100% safety compliance and achieved zero reportable incidents over 12 months while sustaining peak weekly throughput of 150,000+ units.

Operations Manager III | Amazon Transportation Services Pvt. Ltd. · Hyderabad, India

Aug 2019 – Apr 2020

India's largest sort centre | 1.25 lakh sq. ft. | 600,000 packages/day

- Reduced sort centre operational costs by 12% (\$1.07M annually) through throughput optimisation, process re-engineering, and shift-level productivity improvements.
- Spearheaded CAPEX evaluation and procurement for semi-automated warehouse equipment during Diwali & Prime Day peaks, securing \$0.18M in assets.

Operations Manager II | Amazon Transportation Services Pvt. Ltd. · Hyderabad, India

Apr 2017 – Aug 2019

- Led the launch of three semi-automated sort centres and managed transportation operations for 250,000+ daily packages while maintaining 99%+ on-time dispatch performance.
- Supported Middle East logistics operations during the Souq.com integration and optimized workforce planning across three facilities, reducing attrition by 18%.

Operations Manager I | Amazon Transportation Services Pvt. Ltd. · Hyderabad, India

Jun 2015 – Apr 2017

- Expanded end-to-end transportation processes from fulfilment centres to sort hubs, increasing throughput capacity by 35% and supporting Amazon India's rapid ecommerce growth phase.
- Optimised site capacity and workforce deployment to handle peak volumes (Prime Day & Great Indian Festival (GIF), achieving 99.5% SLA compliance during peak periods with zero major disruptions.

Team Lead | Amazon Transportation Services Pvt. Ltd. · Hyderabad, India

Feb 2013 – Jun 2015

- Improved sortation capacity by 20% while achieving 99.8% accuracy, supporting transportation and logistics operations for 80,000+ daily shipments.
- Led transportation and last-mile operations, ensuring service continuity during critical regulatory disruptions and safeguarding 160,000+ customer shipments, earning the Cowboy Award for operational excellence.

Store Manager | Reliance Vision Express · Nagpur, India

Jun 2011 – Feb 2013

- Managed daily store operations, inventory, and a team of 8 staff; achieved 115% of annual sales targets through improved customer experience and upselling programmes.

Marketing Coordinator | Lawrence & Mayo Optical Pvt. Ltd · Hyderabad, India

Aug 2009 – Jun 2011

- Supported marketing, campaign coordination, and product launch planning for a national optical retail chain.

NOTABLE ACHIEVEMENTS

- Scaled IBO's supply chain network from 2 to 5 cities and enabled launch of 50 retail stores within 12 months, while growing business from \$31.8M to \$43.4M per year and reducing supply chain cost-to-revenue ratio from 6% to ~3.6%.
- Integrated 5 Reliance Retail business verticals (Ajo B2B, Trends, Digital, Netmeds, Ajo B2C) into a unified logistics network, generating \$1M–\$1.2M annual cost synergies and significantly improving delivery SLA performance across South India.
- Delivered \$2.6M transportation cost savings across \$21M annual logistics network through route redesign, fleet optimization, milk-run implementation, carrier renegotiation, and hub rationalization initiatives.
- Recognized with Amazon's "Exceptional & Contingency Champion Award" (2020) and "Cowboy Award" for ensuring operational continuity during Covid lockdowns and AP–TG border disruptions, safeguarding 500K+ customer shipments through rapid logistics rerouting and crisis management.
- Led international peak-sale logistics operations across UAE & Saudi Arabia post Souq.com acquisition and managed high-volume Amazon operations handling up to 600,000 packages/day across India's largest sortation and fulfilment networks.
